Who is Milo Burik?

His name is Milo Burik. We're trying to get more information on this guy, so keep a close eye on his movements. His presence in the city may attract and expose many other wanted criminals.

Why is he in Barcelona?

We don't exactly know why he's in Barcelona. There's word on the street about something big going down, and it could be related to the upcoming Realitat political rally in the city.

Milo's Driving Skills

Drift

Steer + S Key

Milo's driving skills are legendary. He seems to be able to make nearly any vehicle drop into a high speed drift, making him very hard to keep up with through corners.

Handbrake

Steer + Spacebar

Milo's use of the handbrake is artistry. Using it, he can spin a car to face a different direction in the blink of an eye. This enables him to quickly change direction without warning.

Note: Although we believe he has been involved in many vehicle chases, there are no reports of officers killed.

Sat Nav

Milo uses a satellite navigational device to find his way through the city. As he drives, it adjusts to show optimal routes to any desired location in the city.

It also has the ability to track the police if he's involved in a chase. The amount of illuminated stars represents the intensity level of police interest. Incoming message alerts are displayed at the bottom.

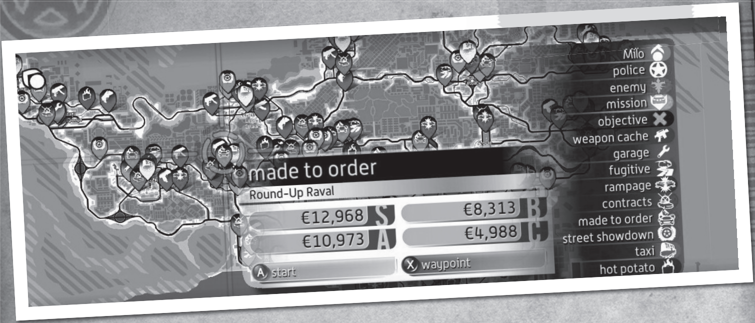
Milo's PDA



Milo can access a full map of the city through his PDA. There are a number of different things that will aid him, including:

- Milo stores his objectives on his PDA.

- He can set a Waypoint on his PDA screen. Locations such as Side Missions, Garages or a Weapon Cache can be selected to lock the location on the Sat Nav route finder. When he highlights a Mission or Side Mission, the details are displayed clearly on the PDA.

- Milo can select and begin any Mission or Side Mission from his PDA. For some Side Missions, he needs to be in a vehicle before he can travel there. Certain vehicles suit Side Missions best, so he needs to choose his vehicle carefully.

- His PDA can be used to track his progress in Barcelona. He keeps tabs on critical things like the amount of Garages and Weapon Caches he has unlocked, completed Side Missions and which vehicle upgrades have been unlocked (become available).

- All Milo's emails are stored in his PDA, so if he needs a reminder of his next step, all of his correspondence is within easy reach.

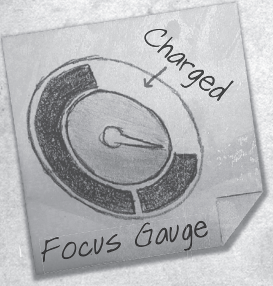
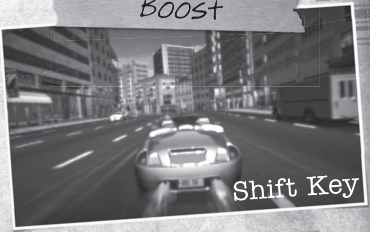
Special Moves

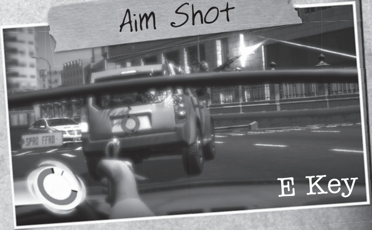
Word on the street is that Milo has an incredible ability to build up *Focus*, allowing him to achieve impossible things with a vehicle. Once he's in the zone, he can perform the Special Moves listed below.



Boost

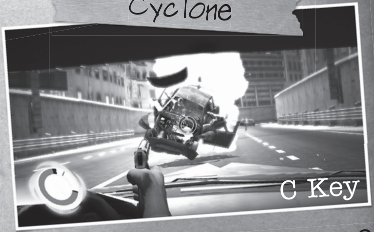


Aim Shot



Witnesses say Milo has the ability, at high speeds, to focus a powerful gunshot through his windshield. His aim is near perfect, so do NOT stay in front of him too long during a vehicle chase.

Cyclone



Witnesses have also seen Milo perform a Special Move called the Cyclone. At high speeds, he can spin his vehicle 180 degrees, focus and then destroy his chasers with a pistol.

Combat Moves

It's hard to believe, but witnesses and victims believe that Burik has an amazingly dangerous method of stealing vehicles. He Airjacks their car by leaping from the car he is driving onto their car. The poor Airjack victim is then cast out onto the street.

Note: Milo is able to Airjack any vehicle at any time. His level of focus doesn't seem to be a factor.

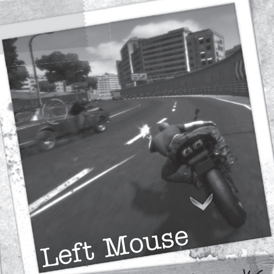
Combat Moves

Milo's weapon skills are often brought into play to compliment his vehicle attacks - particularly when he's driving a motorcycle. He has been seen taking out the tires and occupants of other vehicles with a few precise shots as he drives past. His accuracy seems to improve the longer he can keep firing at his enemy.

Car Attacks



Motorcycle Attacks

Milo's driving skills are not limited to fast drifts and handbrake turns. He's been observed destroying his enemies' vehicles by shunting and slamming into them with his own ride. Enemies to the left, right and in front of his vehicle can be targeted.

Wherever Milo Burik goes, a trail of smoking wreckage is usually left in his wake. He inflicts untold damage to public property using this combative style of driving.

Taking Cover

Lock-On

Our sources say he has an innate ability to lock-on to a target, then take him out.

Witnesses also say his ability to take cover, lock-on then fire at a foe is uncanny.

We believe Lumi will be working with Milo on an upcoming heist. Catch her in the act, and you just may see Milo behind the wheel.

Javier Ramos

Javier works closely with Lumi Vega. If she's planning a heist, you can be certain that Javier will be involved.

These are only some of the contacts we are aware of. There are more.

If Milo needs to know what the word on the street is, he'll go to Adrian. As criminals go, he's not at the top of our list, but keep an eye on him.

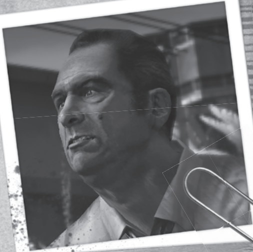
Barcelona Crime Families

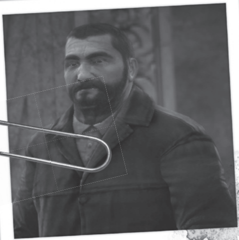
Paulo Lial, head of the Los Lantos Cartel, might be looking for someone with Milo's skills. Milo might not want to refuse Paulo's offer. This guy is your friend one minute then your violent executioner the next.



Paulo Lial

Stavo Delgado, head of the Chulos Canallas, may also require the services of a Wheelman like Milo. Come across Stavo, and you're likely to find his unpredictable brother Miguel, a Chulos Canallas enforcer.

Stavo Delgado



Radu Negrea

Radu Negrea, head of Barcelona's Romanian faction, will likely want to employ Milo to do his dirty work. Formerly a key figure in Russia's gangland, Milo will need to watch his back if he does any work for Radu.

Suspected Offenses

We believe he is regularly hired to hunt down and destroy a particular vehicle and its occupant. Completing these missions seems to infuse Milo with more focus, which allows him to pull off special moves more easily.

Contracts

Fugitive

Milo apparently has enemies, and when they spot him on the street, a violent vehicle chase ensues. His enemies will do whatever is necessary to take him down. Completing these missions seem to make Milo's vehicles stronger.

Hot Potato

There are also reports that he is sometimes hired as a courier, driving dangerously through the streets of the city. Reports state that completing these missions allow Milo access to Weapon Caches throughout the city.

Made to Order

Milo is suspected of Airjacking and delivering stolen vehicles to his counterparts. He has little time to spare, so stopping the car to let out the driver is NOT an option. We believe that completing these missions unlocks his Garages throughout the city.

Suspected Offenses

Milo is suspected of going on a Rampage, destroying public property and attacking citizens in other vehicles. Completing these missions seems to give Milo an edge in car combat. It's as if his attacks get more powerful!

Rampage

Street Showdowns

Milo may be taking part in illegal Street Showdowns. The speeds are incredibly dangerous to other drivers and pedestrians. Completing these missions allows Milo to upgrade his cars performance. Their handling and power seem to increase.

Milo is suspected of stealing taxis and picking up passengers. Many witnesses and passengers say that their driver was a maniac with no regard for public safety.

Completing these taxi rides allows Milo to quickly travel to specific locations throughout the city.

Municipal Threats

We need to protect the city. Burik is linked to destroying artwork, as well as reckless driving beyond regard for public safety. Cameras throughout the city have captured some shocking images. Here's what we know:

Lion Statues

Milo must hate these Lion statues. There are many of them scattered throughout the city, and he is suspected of destroying any that he comes across.

Milo's suspected reckless driving may not be limited to the asphalt. Witnesses have seen vehicles soaring through the air. If you're pursuing Milo at high speeds, be prepared to land your vehicle safely.

Milon ajotaidot

Liukuminen

Ohjaa + S-näppäin

Milon ajotaidot ovat legendaariset. Hän näyttää saavan melkein minkä tahansa ajokin vauhdikkaaseen liukuun, joten hänen perässään on hyvin vaikea pysyä mutkissa.

Käsijarru

Ohjaa + välilyönti

Milo käyttää käsijarrua taidokkaasti. Sen avulla hän voi pyöräyttää auton hetkessä eri suuntaan. Näin hän voi nopeasti ja varoittamatta muuttaa kulkusuuntaansa.

Huomautus: Vaikka uskommekin hänen olleen mukana monissa autotakaa-ajoissa, niissä ei ilmeisesti ole kuollut poliiseja.

Sat Nav

Milo etsii reittinsä kaupungissa satelliittinavigaattorilla. Kun hän on ajamassa, se näyttää parhaat reitit minne tahansa kaupungissa.

Navigaattori pystyy myös seuraamaan poliiseja, jos hän on mukana takaa-ajossa. Palavien tähtien määrä osoittaa poliisin kiinnostuksen voimakkuutta. Ilmoitukset viesteistä näkyvät alalaidassa.

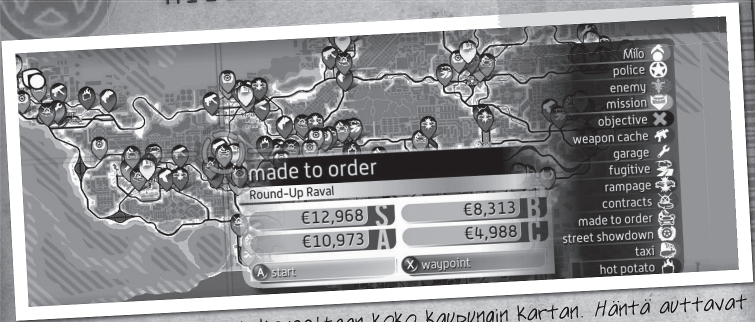
Milon kämmentietokone



Milo näkee kämmentietokoneeltaan koko kaupungin kartan. Häntä auttavat esimerkiksi seuraavat ominaisuudet:

- Milo voi tallentaa tavoitteensa kämmentietokoneelleen.

- Milo voi asettaa välietapin kämmentietokoneen näytölle. Sivutehtävien, korjaamojen ja asekätköjen sijainnit voidaan lukita SatNavin reitinetsijään. Kun Milo korostaa tehtävän tai sivutehtävän, sen tiedot näkyvät selkeinä kämmentietokoneella.

- Milo voi valita ja aloittaa minkä tahansa tehtävän tai sivutehtävän kämmentietokoneeltaan. Joissakin sivutehtävissä hänen on oltava ajoneuvossa, ennen kuin hän voi matkustaa päämääränsä. Jotkin ajoneuvot soveltuvat parhaiten sivutehtäviin, joten ajoneuvon valintaa on harkittava tarkasti.

- Kämmentietokoneellaan Milo voi seurata edistymistään Barcelonassa. Hän pitää silmällä kriittisiä tekijöitä, kuten avattujen korjaamojen ja asekätköjen määrää, suoritettuja sivutehtäviä ja ajoneuvojen käyttöönotettuja parannuksia.

- Kaikki Milon sähköpostit tallennetaan kämmentietokoneelle, joten jos hän tarvitsee muistutusta seuraavasta vaiheesta, postit on helppo tarkastaa.

Erikoisliikkeet

Kadulla huhutaan, että Milolla on uskomaton keskittymiskyky (Focus), jonka avulla hän pystyy tekemään mahdottomia temppuja ajokeilla. Kun hän on keskittynyt, hän voi suorittaa alla lueteltuja erikoisliikkeitä.

Lisäteho

Tähdätty laukaus

Todistajien mukaan Milo pystyy kovassa vauhdissa keskittämään tehokkaan laukauksen tuulilasin läpi. Hänen tarkkuutensa on lähes täydellinen, joten <u>ÄLÄ</u> jää hänen eteensä liian kauaksi takaa-ajon aikana.

Sykloni

Todistajat ovat nähneet Milon tekevän myös erikoisliikkeen nimeltä Sykloni. Hän voi kovassa vauhdissa pyöräyttää autoaan 180 astetta, keskittyä ja tuhota takaa-ajajansa pistoolilla.

Taisteluliikkeet

Sitä on vaikea uskoa, mutta todistajien ja uhrien mukaan Burikilla on uskomattoman vaarallinen tapa varastaa ajoneuvoja. Hän sieppaa autoja hyppäämällä ajamastaan autosta toiseen autoon. Sitten hän heittää autosieppauksen uhrin autosta kadulle.

Huomautus: Milo voi milloin vain siepata minkä tahansa ajokin. Hänen keskittymistasonsa ei tunnu vaikuttavan asiaan.

Taidot kävellessä

Suojautuminen

Lukitseminen

Lähteemme kertovat, että Milolla on luontainen taito lukita tähtäys ja tuhota kohde kerralla.

Ammu suojasta

Todistajien mukaan hänen kykynsä suojautua, lukita tähtäys ja ampua on uskomattoman tarkka.

Tarkka tähtäys

Milo on kuuluisa luovuudestaan. Hänen tiedetään tuhonneen vihollisen tarkentamalla tiettyyn kohteeseen, esimerkiksi räjähteisiin.

Milo som förare

Drifta

Milo är en legendarisk förare. Han har förmågan att få så gott som alla fordon att drifta i hög hastighet. Det gör det svårt att hänga med honom genom kurvor.

Handbroms

Milo hanterar handbromsen mästerligt. Med hjälp av handbromsen kan han få en bil att svänga runt på ett ögonblick. Därför kan han utan föregående varning byta riktning.

Obs: Vi tror att han har varit med om många biljakter, men det finns inga rapporter om att poliser dödats.

GPS

Milo använder sig av GPS för att ta sig fram i staden. Medan han kör ändras den så att den visar den lämpligaste vägen till önskad plats i staden.

Med hjälp av sin GPS kan han också följa polisen om han är inblandad i en biljakt. Antalet lysande stjärnor visar hur intensivt polisen intresserar sig för honom. När nya meddelanden mottas visas det längst ned.

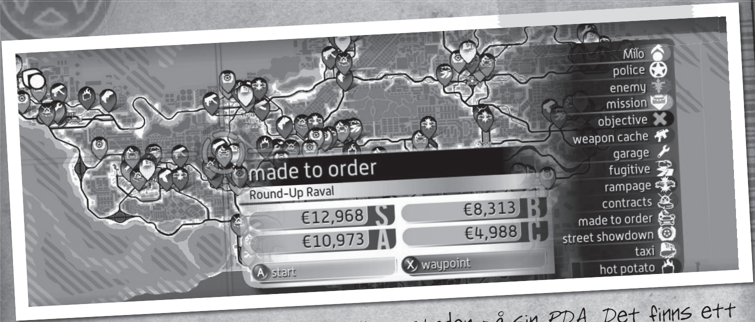
Milos PDA



Milo kan visa en komplett karta över staden på sin PDA. Det finns ett antal saker som hjälper honom, här är några exempel:

– Milo sparar sina mål på sin PDA.

– Han kan ställa in en ruttpunkt på sin PDA-skärm. Det går att välja platser som sidouppdrag, garage, eller vapenlager för att låsa platsen på GPS-apparaten. När han markerar ett uppdrag eller sidouppdrag visas informationen tydligt på PDA:n.

– Milo kan välja att starta ett uppdrag eller sidouppdrag från sin PDA. För vissa sidouppdrag måste han vara i ett fordon innan han kan åka dit. Vissa fordon passar bättre för sidouppdrag, så han måste välja fordon noggrant.

– PDA:n kan användas för att se hur det går för honom i Barcelona. Han håller koll på viktiga saker som antalet garage och vapenlager han har låst upp, slutförda sidouppdrag och vilka fordonsuppgraderingar han har låst upp (vilka som kan användas).

– All Milos e-post sparas i hans PDA, så om han behöver få en påminnelse om nästa steg kommer han lätt åt all information.

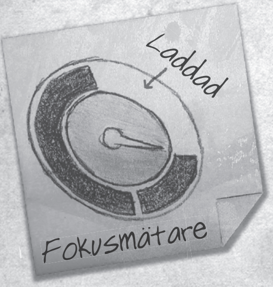
Specialrörelser

Det sägs att Milo har en otrolig förmåga att bygga upp Fokus. Därför kan han göra otroliga saker med ett fordon. När han befinner sig i zonen kan han utföra de Specialrörelser som visas nedan.



Öka

Ögonvittnen säger att Milo har förmågan att i höga hastigheter fokusera ett kraftfullt skott genom vindrutan. Hans sikte är nästan perfekt, så du ska INTE stanna kvar för länge framför honom under en biljakt.

Sikta med vapen

Cyklon

Ögonvittnen har också sett Milo utföra en specialrörelse som kallas Cyklon. I höga hastigheter kan han svänga runt sitt fordon 180 grader, fokusera och sedan förstöra sina förföljare med en pistol.

Stridsrörelser

Det är svårt att tro, men ögonvittnen och offer tror att Burik använder en otroligt farlig metod för att stjäla bilar. Han luftkapar deras bil genom att hoppa över från den bil han kör till deras bil. Sedan slänger han ut offret för luftkapningen på vägen.

Obs: Milo har alltid förmågan att luftkapa en bil. Hans fokusnivå tycks inte spela någon roll.

Stridsrörelser

Milos vapenskicklighet används ofta som komplement till hans fordonsattacker – särskilt när han kör motorcykel. Ögonvittnen säger sig ha sett hur han med några exakta skott skjuter sönder däck och skjuter personer i andra bilar medan han kör förbi. Hans träffsäkerhet tycks öka ju längre han kan skjuta på sin fiende.

Stridsrörelser

Milos skicklighet som förare består inte bara av snabb drifting och handbromsvändningar. Det har hänt att han förstört sina fienders bilar genom att lägga sin bil jämsides med dem och krascha in i dem. Fiender som finns till vänster, till höger och framför hans bil kan utsättas för det.

Där Milo Burik kört kantas vägen vanligtvis av rykande bilvrak. På grund av sitt våldsamma körsätt orsakar han mängder av skador på offentlig egendom.

Ta skydd

Låsa på fiende

Våra källor säger att han har en medfödd förmåga att låsa på en fiende och sedan oskadliggöra honom.

Skjuta från skydd

Vittnen säger också att han är kusligt skicklig på att ta skydd, låsa på fienden och sedan skjuta.

Precisionssikte

Vi har hört att hans kreativitet är helt enorm. Det sägs att han är känd för att sikta på ett exakt mål, till exempel sprängämnen, för att oskadliggöra fienderna.

What is the PEGI System?

The PEGI age-rating system protects minors from games unsuitable for their particular age group. PLEASE NOTE it is not a guide to gaming difficulty. Comprising two parts, PEGI allows parents and those purchasing games for children to make an informed choice appropriate to the age of the intended player. The first part is an age rating:

3+ 7+ 12+ 16+ 18+

The second is icons indicating the type of content in the game. Depending on the game, there may be a number of such icons. The age-rating of the game reflects the intensity of this content. The icons are:

VIOLENCE, BAD LANGUAGE, FEAR, SEXUAL CONTENT, DRUGS, DISCRIMINATION, GAMBLING
